16. POST GRADUATE TRAINING PROGRAMME

I have adopted the system of postgraduate training, which is helping them in a big way. Postgraduates of the department are being given systematic training so that when they pass out M.S. and leave the department they are confident of all type of E.N.T. surgeries. The schedule of their surgery training includes

Surgery Training

1st year of residency - Tonsil, Septum and minor surgeries like Lymph node excision, cyst removal, CLW traumatic wounds

2nd year of residency- endoscopic D.C.R, Fracture nasal bone

- i. 2-months rotation to the cancer hospital where they learn oesophagoscopy. Bronchoscopy, R.N.D. and other oncological surgeries

- ii. 1 month rotation to audiology and Speech therapy
- iii. 1 month rotation to the casualty

3rd year residency – They carry out 10 temporal dissections and then they are given cortical mastoidectomy, and at the end of 3rd year another 5 temporal bone dissections, they are given modified radical mastoidectomy, all under supervision of senior staff members. If any time any facial nerve palsy occurs, one has to carry out another 2 temporal bone dissections before they are given any further mastoid surgery. This principal is applicable to the consultant also

Nasal polyps myringoplasty at the beginning of 3rd year and at the end of 3rd year Typanoplasties, Thyroid and thyroglossal duct surgeries, FESS Micro scopic laryngeal surgeries,

4th year of residency -.

Surgeries like Stapedectomy, Rhinoplasty.and., they are the 1st assistants
Their progress of surgery is closely monitored in the logbook

Academic Work -- All the postgraduates are encouraged to present scientific paper

Post graduate Teaching -includes Seminars, Case presentation. Ward teaching & Journal club etc.

Scientific paper publication -They are encouraged to send paper for the publication and every resident has at least 2 to 3 indexed publications by the time they complete 4th year of residency
